WOMEN IN HOUSE OF MONKS

Gov. Beckham's Wife and Other Ladies on Forbidden Ground

Gethsemanie, Ky., June 5.—When Mrs. Beckham, wife of the governor of Kentucky, passed the portals of the famous old Trappist Monastery of Gethsemanie today, she carried with her the distinction of being the second woman that has ever had the honor to invade the monastic peace of this beautiful old retreat. The welcome of the governor and party was impressive and unique, and a new page of history was made for this community of the silent brotherhood.

The party was greeted at the station by a brass band and the Gethsemanie College students, and escorted to the abbey. Then the way was laid to the porter's lodge, over which is the sign which forbids women to enter under pain of ex-communication. Mrs. Beckham glanced at the sign, and then at the lay brother, whose duty it is to prevent feminine invasion. But for once the monk was disarmed, and the woman rustled proudly by into the sacred domain of the Trappist Ascetics. The ban of perpetual silence of the brothers was temporarily lifted by the abbot, and the brothers were permitted to express their pleasure at meeting the executive. After an inspection of the premises, the party was tendered a dinner by Father Oberth.

Gov. Beckham in his address spoke of the former visit he had made to the forbidden grounds about the college with a party of young men and women. "We were graciously received by Father Edward, who was the abbot," he said, "but were forbidden within these sacred precincts. The young woman with me peered into the door and expressed a desire to go in. 'When Mr. Beckham is governor, and you are Mrs. Beckham you may enter,' said Father Edward with a faint smile. The young woman who blushed then was Jean Fuqua, now Jean Fuqua Beckham. A man's ambition and a woman's curiosity have now opened the gates of the monastery to us both."

The governor's party consisted of 20 members.

The wife of ex-Gov. Proctor Knott was the first woman ever to visit the monastery. The ladies in the governor's party today were admitted as part of Mrs. Beckham's suite.

ADDITIONAL PERSONALS.

Mr. G. S. Norfleet, of Winston, spent last night in the city.

Mr. John F. Ross, of North Wilkesboro, spent last night in the city.

Miss Mamie Banner, of Mt. Airy, and Misses May and Marguerite Crow, of Raleigh, are in the city visiting Miss Kirkland, at the State Normal College.

Mr. E. W. Farrior, of Charlotte, was in the city this morning.

Miss Sadie Fisher, of Concord, who has been spending several days in the city, visiting friends and attending the Murray-Hodgin marriage, left last night on her return home.

Circus Coming.

The small boy may now prepare to be happy. A circus will be on exhibit in the city next Tuesday, the 11th inst. It is Shott Bros' shows and circuses setting forth its advantages are being scattered over the city.

A Pleasant Occasion.

The Southside Hose Company enjoyed a feast of good things last night at the Hose house. It was the treat of the newly elected officers. The occasion was graced by the presence of several charming young ladies.

The Jr. O. U. A. M. No. 13, now numbers one hundred and fifty strong. Hardly a meeting since January has this order failed to lead some soul into its mysteries.

THE NEW TOBACCO COMPANY.

JAMES B. DUKE IS ELECTED PRESIDENT.

The Big Concern Formally Organized by the Election of Directors and Officers—Drafts Made on the American and Continental Tobacco Companies for the Latter.

New York, June 6.—The Consolidated Tobacco Company, incorporated in New Jersey on Wednesday, was formally organized in this city today, by the election of these directors: J. B. Duke, Oliver H. Payne, Thomas F. Ryan, J. B. Cobb, W. W. Fuller, Grant B. Schley, Frank H. Ray, Anthony M. Brady, C. C. Dula, P. A. B. Widener, Percival S. Hill, B. N. Duke, and Chas. E. Hollowell. The directors organized by electing James B. Duke president; Thos. F. Ryan, first vice president; J. B. Cobb, second vice president; C. C. Dula, third vice president; R. H. Harris, treasurer, and C. S. Kenne, secretary. The last named official is at present in charge of the transportation department of the American and Continental Companies, and all the other persons named are directors or officers of the same corporations.

It was decided at the first meeting of the directors to offer 4 per cent. 50-year gold bonds of the company to the common stockholders of the American and Continental Tobacco Companies, on the basis of \$1 in bond for each share of stock. In the case of the American company, this offer is equal to \$2 in bonds for each dollar par value of its stock, so that stock is of the par value of \$50 per share.

In addition, American Tobacco common stockholders who accept this offer will receive 1/2 per cent. in cash adjustment of the interest accruing on their stock to August 1, on which date the bonds of the consolidated company begin to draw interest. A formal offering of the bonds to the stockholders of the American and Continental Tobacco Companies will be made through a stock company within a few days. All of the stock deposited with the trust company will at once be placed under the trust indenture securing the bonds, as security for the same. The bonds can only be issued to take up the two classes of stock mentioned and for no other purpose. At not time can the issue of bonds exceed the amount of stock deposited. The bonds besides being a lien upon the shares deposited will also be a lien upon the \$30,000,000 of the cash capital of the company and whatever property be acquired with the same and also upon the earnings of the new company. An officer of the company states that considerably more than a majority of the common stock of the American and Continental Companies has already been pledged for exchange into the hands of the consolidated company. This same official made it clear that in the consolidation the preferred shares of the American and Continental Companies are not disturbed.

By control of these concerns, the Consolidated Company will also control the American Cigar Company, 70 per cent. of the capital of that corporation, being held by the American and Continental companies.

GERMANS KILLED AND EATEN.

THE FATE OF THE SOUTH SEA EXPEDITION.

The Party Taken Unaware by the Cannibals and Twelve Men Killed.

Berlin, June 6.—The Tageblatt prints a special correspondence from New Guinea, containing a full account of the massacre of the members of the first German South Sea expedition, on the Cannibal Islands of St. Matthias. They were all killed and eaten, save Dr. Heinroth.

The Colonial Zeitung, the official organ of the German Colonial Society, furnishes details of the massacre. It seems that the vessel which carried the expedition to the island of St. Matthias left, after a few days, for Herbertshoh, New Britain, to get coal and fresh supplies. During its absence the savages, who had hitherto appeared friendly, although known to be rabid cannibals, planned to kill and rob the diminished party.

The plot was carried out one morning while the members of the expedition, who had a body guard of 49 Papuans, were cleaning their rifles which they had taken apart. Suddenly 80 of the islanders broke from the bushes, raising fierce war cries and brandishing spears with which they stabbed to death the leader of the party, Dr. Mencken, his secretary, Herr Caro, and a white sailor, who was asleep under a tent. Dr. Heinroth emptied a revolver into his assailants while the body guard in the meantime retired to the boats with the wounded and Dr. Heinroth, leaving twelve dead. The boats put off to an island not far distant, where the expeditionary vessel rescued them. Subsequently the survivors returned to the island of St. Matthias, where they found that the bodies had been devoured and the camp absolutely looted.

Shot Five Before Stopped by Bullet.

Coleman, Mich., June 5.—Will Arnell, proprietor of a hotel and saloon in Beaverton, ran amuck today, and before he was overpowered shot and killed his 16-year-old daughter, fatally wounded his wife, and shot his aged mother, brother, and sister. No reason can be assigned for the shooting.

When Arnell, who had been drinking for several days, entered the house today, he went upstairs to where his daughter was hiding from him under a bed, and killed her. He then came down and fatally shot his wife, and fired at his invalid mother, who was sitting in her chair, shooting her through the hand. Mrs. Samuel Dopp and Arnell's sister were attracted by the shooting and as they approached Arnell walked out to street and opened fire on them, wounding his sister slightly.

At this juncture Arnell's brother and Mrs. Dopp's husband came on the scene, and Arnell shot his brother through the arm. Dopp was armed with a shot gun and opened fire, wounding Arnell, who was then captured and taken to the county jail. His wound is not fatal.

Tried to Steal His Children.

New York, June 6.—Arthur Van Sicklen, a lawyer, and president of the Commercial Mutual Life Insurance Company, whose office is in Jersey City, and who resides in Whitestone, L. I., called at the police station in Whitestone today and reported that an attempt had been made to steal his two children yesterday afternoon. The children are George W. Van Sicklen, Jr., six years of age, and Edward Van Sicklen, a little over one year old.

Mr. Van Sicklen said that his children were playing in front of his residence yesterday afternoon when they were approached by two well-dressed women who offered them candy and asked them if they would not like to accompany them to New York. The children became frightened and began to cry. Just then a man approached and the women went hastily down a side street and hurried to a railroad station where they caught a train for New York.

Persons who were around the station at the time and who noticed the women, say they appeared to be greatly excited.

PARDONS RAISE A STORM

Honolulu Greatly Excited by Bribery Inquiry Developments

Honolulu, May 28, via San Francisco, June 5.—Sensations that have deeply stirred Honolulu have grown out of the investigations of the grand jury summoned by Circuit Judge Humphrey to investigate charges of bribery in the legislature.

Last Saturday three of the best known lawyers of Honolulu—Gen. A. S. Hartwell, W. A. Kinney, and S. M. Ballou—were sentenced to thirty days in jail for contempt of court by Judge Humphreys, but before they reached the prison all were released by pardon by Acting Governor Cooper. The sentences were on account of an affidavit which the attorneys attempted to read and file in Humphreys' court to show, on motion for a change of venue, the judge's personal bias against Editor Smith, of the Advertiser, who was indicted by the grand jury for perjury.

In the storm raised by these proceedings the grand jury's investigation of the bribery charges have been lost sight of, but the jury is still in session.

The foundation for the reports of bribery in the legislature had suddenly been revealed by Jacob Cooper, who wanted a railroad franchise. He is the client whose name L. A. Thurston refused to reveal to the grand jury. Cooper swears that he was asked by three different members of the house to pay money for their efforts in behalf of a bill to secure a franchise for his railroad. He has been before the grand jury and, it is stated, has told the jury the names of the three representatives who solicited bribes. The report of the grand jury is awaited with much interest.

Good Old Red-tape.

London Tit-Bits.

A Somerset House clerk entered the private room of the head of his department to ask for a fortnight's holiday. The official received him with his usual affability, and told him to hand in his request in writing.

"Oh, I did not think that was necessary if I applied to you, in person," said the clerk.

Oh, yes; in fact it is indispensable.

"Then I will go back to the office."

"No need to do that; see, here are pens, ink, and paper, sit down and write."

The clerk obeyed: The petition was written out, signed, and folded. "Now," said the functionary, "you have only to present it."

"To whom?"

"To me, of course!" And, taking the petition, he wiped his glasses, carefully adjusted them, read the document from beginning to end, placed it on a file along with a number of similar applications, and then remarked with the utmost gravity: "I have read your petition, and regret exceedingly that I am compelled to inform you that I cannot accede to your request." Imagine the feelings of the poor clerk!

HERE AND THERE.

How an Obstinate Bride Was Brought to Terms. Objected to Saying "Obey." When the Groom Started to Leave She Quickly Said It.

In telling about 'Some People I Have Married,' in the Ladies' Home Journal for June, the Rev. D. M. Steele says: "Being an Episcopalian, I always use the formal printed service of the prayerbook. In this the greatest stickler is 'obey.' One day a couple came to me, bringing as witnesses the parents of both bride and groom. Everything proceeded smoothly to the point 'love, honor and obey,' when the bride refused to say the last. I repeated it and waited. Again she refused and I shut up my book. They talked it over, and the more seriously they argued and discussed the more stubbornly she refused. The parents became angry, the groom excited and the bride hysterical. To humor her he joined in the request to have me leave it out. But I liked the fellow and decided that a little sternness from me in the present might be a favor to him in the future. So I told them I had no authority to change it and would not do so. I tried to show the foolishness of her objection: 'Well, this household must have a head somewhere. I will leave it out for her if you say it.' Then it was his time to refuse, which he did. He gathered up his hat and started for the door, when, presto, change! she sprang after him, led him back by the hand, looked meekly up at him and said it."

"Embarrassment," said the writer, appears to be the natural concomitant of matrimony. At least this is true in the incipient stages. Invariably, however, there is a striking contrast between the relative composure of the man and the woman. Both are nervous, but never both at the same time. If they come a week before hand to make arrangements she is rattled and he is cool; while on the day of the ceremony she rises to the occasion and he sinks under it. Thus I have never seen a bride who was scared; I have never seen a groom who was not."

Shot by a Jealous Husband in Columbia.

The State.

There was a great stir in the southeastern part of the city last night. A white man was shot down under rather romantic circumstances.

Noah Garner, the wounded man, is an employe of the Columbia Duck Mill. So is a Mrs. Blackwell to whom Garner has been paying attentions. She passed off as a widow, he as a free lance.

A Mr. Blackwell appeared on the scene last night, and it is said that Garner had a wife in Greenville. The affair is the outcome of the Garner's alleged desertion of his wife to be followed by the other woman.

The story, as the police have been able to gather it, is that Garner and the Blackwell woman had been out walking. He had secured her a place to work here and had found her a boarding house. Ever since she came from Greenville he had been constant in his attentions.

As they approached the boarding house a form confronted them. Deliberately the stranger fired upon Garner. The ball took effect just below the right nipple and Garner is dangerously hurt. Blackwell, for it was he, walked away. Garner was taken into a house near by. The police patrolled the neighborhood between the State dispensary and the Granby mill, but Blackwell could not be found.

Poets are the only people who ever talk about kissing women's feet, and they get money for it.

A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from pneumonia, but she begged for Dr. King's New Discovery, saying that it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1. Rheumatism

Rheumatism is due to an excess of acid in the blood. When this escapes through the pores of the skin, as it often does, it produces some form of skin eruption—some itching disease like Eczema or Tetter—but when these little tubes or sweat glands are suddenly closed by exposure to cold and sudden chilling of the body, then the poisons thrown off by the blood, finding no outlet, settle in membranes, muscles, tissues and nerves. These parts become greatly inflamed, feverish and hot; dagger-like, maddening pains follow in quick succession, the muscles become extremely tender, the nerves break down and the sufferer is soon reduced to a state of helplessness and misery. This acid poison penetrates the joints and seems to dry out the natural oils, and the legs, arms and fingers become so stiff and sore that every movement is attended with excruciating pains.

Liniments, plasters, electricity and baths, while their use may give temporary ease, cannot be called cures, for the disease returns with every change of the weather.

S. S. S. cures Rheumatism by working a complete change in the blood; the acids are neutralized, the circulation purified and the rich, healthy blood that is carried to the irritated, aching muscles and joints, soothes and heals them. S. S. S. cures Rheumatism even when inherited or brought on by the excessive use of mercury. Opium, in some form, is the basis of nearly all so-called Rheumatic Cures, which deaden the pain but do not touch the disease and lead to ruinous habits. Alkalies and the potash and mineral remedies so often prescribed, affect the tender lining of the stomach and weaken the digestion, thus adding another burden to the already weak and impoverished blood. S. S. S. contains no mineral or dangerous drug of any kind, but is a simple, vegetable remedy and the most perfect blood purifier known. Send for our book on Rheumatism and write our physicians if you wish any information or advice. We would be glad to mail you a book free; we charge nothing whatever for medical advice.

WINE OF CARDUI

WOMEN WHO WORK.

St. Louis, Mo., Aug. 19. Though only 19 years old, I suffered from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui and that made me feel better. Have now used several bottles and am well. My mother used the Wine for Change of Life and was greatly relieved.

MISS MARGARET WALSH.

Wine of Cardui

Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tiresome tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent or foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.

FRIDAY, JUNE 7.

Good Schools and Good Roads.
Shelby Aurora.

We have declared many times before that good schools and good roads are the two great needs of our people. It must rejoice the heart of every loyal North Carolinian to see hope for these ripening into reality. Never before in the State's history has there been such interest in these two lines of permanent progress. Especially has the news from the May elections all over the state on graded schools been gratifying. On every hand we are hearing and reading of more schools, more books, more libraries—all of which means a greater and more enlightened people.

Traveling Libraries.

Chicago Chronicle.

The statement has just been made in a conference of women's clubs that it was a Chicago club of women who sent out the first traveling library. This is an amusing instance of the proverbial "little learning."

When men had to make books with the hand alone the traveling library was an institution of society. Deemed as precious as gems, books were inclosed in cases and with guards to protect them against injury were borne in pride from place to place, and thus transferred as often as desired, bringing their privileges to the largest possible number of readers. Libraries traveled from country to country, over mountains, across seas, before a woman's club had been formed in any part of the earth.

What is new in culture is chiefly in its superficial extent.

Is a Good Breakfast Necessary?
Yes.

Medical Brief.

A good breakfast is the physical basis of a day's work. The American breakfast, regarded with so much horror on the European continent, has contributed largely to make the nation what it is today. It enables our forefathers to do an amount of work which it appals foreigners to contemplate.

As a rule there is something wrong with the man, or with his habits, if he cannot eat a good breakfast. A man who works at high tension all through the morning hours without this substantial foundation is working entirely on his nerves. That means disordered nutrition, and sooner or later, bankruptcy and collapse.

If a man gets up in the morning with a bad taste and no inclination for food, it is because his system is full of waste and his circulation of obstructions. Let him make a radical change in his habits, and train his digestive organs to accommodate a nourishing morning meal.

The Generous Laundryman.

Over in Brooklyn on Central avenue near Gates avenue, a Chinese laundryman has succeeded in taking away most of the trade from the other laundries in the neighborhood. He did this by presenting to each of his patrons some little trinket which cost him a cent or two, and in this way he got over the rule established by the laundrymen's union, which forbade him to charge less than the regulation rates for shirts, collars and cuffs. Almost every day he has a novelty to attract patrons. The children of the neighborhood flock to his place with their bundles of laundry knowing they will be rewarded with a china cup or saucer or some Chinese toy.

One little girl residing on Evergreen avenue was met at the door by her mother who had been shopping. She asked the child where she had been. The child explained that she had a bundle of her father's shirts which she was taking to the gift laundry. Upon opening the bundle the mother discovered that everything in it was snowy white and had only been returned from the laundry on the previous day.

"Well, said the little girl, 'it's no difference if they are clean, for I brought them that way last week and the Chinaman gave me a present just the same.'"

ADVERTISING COMMENT.

By THE HUSTLER.

The Gate City Steam Laundry's ad today is to some extent curtailed, as to what was intended, owing to a misunderstanding on the part of our compositor. While the elegant home of this firm and its name, at all times, stands for what is best in Laundry work, yet what they have to say about it will be more interesting and appear in The Telegram tomorrow.

Accidental.

Detroit Journal.

The Emperor Kwang Su frowned darkly.

"The West, forsooth!" sneered he.

"How do I know there is any West?"

"Well, accidents will happen, you know!" exclaimed the viceroy, Li Hung Chang.

Fortunately his majesty by recourse to his Ollendorf, was able to gather substantially the full import of this clever jest, else the aged courtier might then and there have been divested of the shrimp pink golf stockings of a mandarin of the first rank.

Sunbonnets for Horses.

Washington Post.

The executive committee of the Washington Humane Society met in monthly session Monday in the Warder Building. The agents submitted the following summary of work for the month ended May 31: Number of cases investigated, 1,437; prosecuted, 43; convicted, 41. Animals killed by the agent—Dogs, 3; cats, 4; horses, 20. Cases of beating or whipping, 4; overloading, 1; driving when galled, 13; driving when lame, 23; lack of food or shelter, 2; collateral deposited, \$217; collateral forfeited, \$166; fines imposed, \$39; amount collected in Police Court for society, \$205.

The president read letters from the agents giving their views on the improvement of the work of the society. Some useful suggestions were made. One proposed the use of sunbonnets for horses exposed all day to the full glare of the sun. These bonnets are common in England, France, and parts of our country, and the society appropriated \$10 to obtain a few for gratuitous distribution, hoping that their introduction in this way may promote their general use.

A resolution was passed to have the agents investigate the condition of horses kept standing all day in the market without protection from the sun and without sufficient food or water.

Ball Players in Car Wreck.

Syracuse, N. Y., June 5.—A north-bound trolley car on the Syracuse, Lakeside and Baldwinsville road, with forty-eight passengers, including eight of the Syracuse baseball players and six policemen, jumped the track while rounding a sharp curve this afternoon, plunged across the southbound track, and toppled over, injuring more than 20 persons quite seriously.

Failure of the hand and electric brakes to check the speed of the car as it shot down an incline was responsible for the accident. No one was fatally hurt, but scarcely a person aboard escaped without some evidence of injury. Most of those aboard the car were bound either for the lake resorts or the baseball game.

When the car went over men and women were piled upon one another. Windows were shattered, all the seats in the car were broken, and the air was filled with flying glass and splinters of wood. Some of the passengers were rendered unconscious. De Montreville, shortstop, and White, left fielders of the Syracuse Club, are badly hurt and will be out of the game for months. Others will probably be able to play in a week. Game today was postponed on account of the accident. De Montreville is a brother of Gene De Montreville, of the Boston.

CARRETT GIVING TESTIMONY.

HE IS THE FIRST WITNESS INTRODUCED FOR THE STATE.

Gives His Evidence in a Straightforward, Clear Way—Chicago Attorney is Much on His Feet, and is Told Who Was Running the Court.

Interest in the trial of the gold brick men has not abated one whit. If possible, it was more intense today than on yesterday. A crowd of men stood around the court house before the hour for court to convene this morning, and within a few minutes after the doors were opened every seat in the court room was occupied and by the time the court crier's sonorous "O-yez, O-yez" was heard, standing room was at a premium. So anxious were the people to gain admittance that an officer was placed at the foot of the stairs to prevent a stampede. A great many more ladies were in the audience than were present yesterday.

When court opened Mr. Paul Garrett, of Weldon, the principal witness for the prosecution, was placed on the stand and requested to inform the court and jury of the circumstances of the visit of Howard and the conversation that passed between them. Before the witness had time to reply, Mr. Gilmore, of counsel for the defense, was on his feet objecting to the testimony on the ground that the alleged conversation took place in the county of Halifax, whereas the bill of indictment charged that the crime was committed in Guilford. The objection was promptly overruled, as was a second objection. The lawyer was on his feet several times afterwards, and finally Judge Council informed him that he was running the court and would not permit useless interruption of the witness.

The immense crowd hung on every word of Mr. Garrett's testimony, which was given in a clear and distinct manner. He went into details and described minutely the visit of Howard and the subsequent events that led up to the capture of the gang in this city on March 22nd. It was on March 20, said Mr. Garrett, when he received a call at his office near Weldon from Howard, who introduced himself as Frank Thompson, a miner from Arizona, who had recently struck it rich and come east in search of a former partner by the name of Andrew Garrett. He found that Andrew, poor fellow, was dead, but had learned that he had a brother somewhere by the name of Peter Garrett. Learning that there was a P. Garrett in Weldon, and that said P. Garrett was an honest man, he came in search of him, firmly expecting to find the brother of his poor dead partner, in which event he would share with him his suddenly acquired wealth. Howard, or Thompson, was crestfallen when he learned that he was talking with Paul instead of Peter. In the course of the conversation he professed to be deeply impressed with the manner and demeanor of Mr. Paul Garrett, and finally offered to take him his partnership.

It was explained that the gold mine in Arizona was owned jointly by the Thompsons and the Garretts. Amos Thompson and an Indian Chief known far and wide throughout the wilds of Arizona as the brave and fearless Goney Bono. Now Goney Bono had been taken sick at Greensboro, and being a suspicious character, had declined to travel farther, but had gone out into the woods and camped on the banks of a creek. Mr. Garrett was invited to Greensboro and confer with the Indian Chief, and if it was satisfactory with the latter, the new partnership would be then and there formed. It was finally arranged that Mr. Garrett was to come to Greensboro on the following Friday and see Bono. Then it was suggested by Howard that the Indian was anxious to return home and might not wish to continue the visit to Philadelphia for the purpose of disposing of two gold bricks, valued at \$36,000, and purchasing necessary mining machinery. In this event Garrett and Howard were to buy the Indian's interest in the two bricks, the Arizona mine and two other gold bricks, estimated to be worth about \$45,000. Long before this stage of the conversation Mr. Garrett had come to the conclusion that he was dealing with a genuine gold brick swindler. Deciding to attempt the capture of the gang, he seemingly assented to Howard's proposition, and on the appointed day came to Greensboro.

The remainder of the story is well known to the public. Howard accompanied Mr. Garrett to a secluded spot in the woods, on the banks of South Buffalo creek, where the Indian (Daley in a clever disguise) was in hiding with the precious (?) metal. They were

followed to the woods by Sheriff Jordan, Revenue Agent Patterson and several other gentlemen, and at a given signal, rushed in and captured the swindlers and their outfit. Hawley, the assayer, who was stopping at a hotel, had previously been spotted, and while the sheriff's posse was capturing his two confederates, he was being shadowed by Mr. Garland Daniel.

A number of other witnesses are to be examined after Mr. Garrett, who, at this writing, has not concluded his testimony, and it is unknown when the trial will end. That the prisoners will be convicted there is not the shadow of a doubt.

HAS SMALLPOX

Mr. Rush King Develops a Case—Discovered Yesterday Afternoon.

Smallpox seems to have a tenacious hold upon the city. While at no time during the past winter has there been any general uneasiness felt, there have been a number of cases of the disease. Only recently a case here resulted in death in a very few days. Yesterday afternoon it was learned that another case had developed, in the person of Mr. Rush King, a nephew of Mr. John L. King, who lives near the Farmer's Warehouse on Greene street. Day before yesterday Mr. King attended the trial of the gold brick men in the court house, and mingled freely with his associates. Some of them asked him if he did not have the small pox, as his face was at the time broken out. Yesterday his disease was pronounced small pox. It is said he has never been vaccinated.

A STORE ROBBED.

Entrance Effected Through an Upstairs Window—Mr. Sample S. Brown the Loser.

Mr. Sample Brown's dry goods store was robbed last night, and so far the police have no clue as to who did the work. Entrance was effected through the back window upstairs, and it was evidently a premeditated job. The window was raised from the outside, and holes bored with an augur through the solid wooden shutter on the inside. A hole large enough to admit the entrance of a man's hand and arm was made, and then it was the work of only a moment to reach in and pull out the pin that kept the latch in place.

The thieves rummaged through all the shoe stock, principally through that portion of the stock which contained the sizes between five and eight. Several pairs of shoes are thought to have been taken, though of course many more could be taken and not be missed. A ladies' cloak was also taken, and some trousers from the upper floor.

The stock of umbrellas was entered, and a number carried up stairs, where the good ones were sorted from those of cheaper quality, and the latter were left behind.

The lay of the land was evidently known, for nothing was disturbed, so far as can be ascertained, beyond the articles wanted by the thief, and having gotten them, he decamped.

A kind of shed stands at the back of the building, and it was from this that entrance was effected. The roof of the shed was reached by means of a ladder which was left standing there.

Received a Regalia.

One of the events of the commencement of Trinity College that particularly interests the girls in attendance upon that function, is to whom will the regalia worn by the marshals and managers be given? It is the custom of the managers and marshals each year to give to any young lady they choose, their regalia. Among the fortunate girls this year, was Miss Kate Lindsay, of this city, who for some time has been visiting friends in Durham.

Complimentary to Miss Gales.

Mr. Kemp P. Battle, 3d, the popular chief clerk at the Hufnagles, gave a supper last night at the Hufnagles, complimentary to Miss Anna Gales, of Montreat, who is visiting in the city. The occasion was a very enjoyable one. Those present were Mr. Kemp P. Battle and Miss Marjorie Lyon; Mr. Herbert Thompson and Miss Sarah De Butts; Mr. Stanley Shearer and Miss Anna Gales; Mr. De Witt Kase and Miss Lizzie Leigh Dick.

His Salary Increased.

A special to The Telegram this afternoon from Washington says that the postmaster at Greensboro has been given an increase of salary of one hundred dollars per year. This makes the salary of the postmaster \$2,800. At present, that official is off on a week's vacation fishing near his old home in Yadkin county.

TO BUILD OBSERVATION SCHOOL.

WILL COST NOT LESS THAN FIFTEEN THOUSAND DOLLARS.

Miss Dixie Lee Bryant Given Leave of Absence For Three Years—Prof. T. Gilbert Pearson Elected to Fill the Vacancy.

The board of directors of the State Normal College met last night with the following members of the board in attendance: Gen. T. F. Toon, Raleigh, chairman; Dr. J. M. Spainhour, Lenoir, secretary; S. M. Gattis, Hillsboro; H. G. Chatham, Elkin; R. T. Gray, Raleigh; J. D. Murphy, Asheville; C. H. Mebane, Catawba College; J. A. Blair, Asheboro; John Graham, Warrenton, and J. E. Fowler, Clinton.

Dr. Spainhour was re-elected secretary of the board. He has served in that capacity for eight years.

Miss Dixie Lee Bryant, a member of the faculty of the Normal in the Science Department, was granted leave of absence for three years to pursue her studies in biology, geology, and physical geography in European universities. Miss Bryant will sail on the 13th of this month. With her will sail Miss Bertha Lee, also a member of the faculty, who will spend the summer in Germany and Norway.

Prof. Gilbert Pearson, of Guilford College was elected to fill the vacancy caused by the absence of Miss Bryant.

The directors decided to build, during the present summer, a practice and observation school building. This building will cost not less than \$15,000.

The directors held another meeting this morning at the Normal, and several of them left at noon today.

WOULD CHANGE NIAGARA.**Washington Man Submits Remarkable Proposition to the Falls Commission.**

Buffalo Courier.

Joseph L. Keefer, of Washington, D. C., has submitted to the Niagara Falls commission a plan to cut away a portion of Goat Island, build an abutment and connect the American and Canadian Falls in one grand torrent of water.

"My idea," said Mr. Keefer last night, "is to build a great giant wall or abutment, with stone top or coping that cannot be washed away, and let the water from both sides of the island gracefully glide over the dam or stone esplanade, thus making one continuous stream of pure white water from the jut of one shore to the jut of the other."

"I conceived the idea," he said, "when I was at he falls on Friday. I was standing over on the Canadian side where the old British museum used to be, and, looking across, the thought struck me how much prettier the falls would be if they were not broken by Goat Island. Then I set to work to think how the improvement could be made. When I reached what I believe is a feasible plan I made inquiries when the commission would meet, and finding it was to convene on the following day, stayed over and attended its meeting at the Prospect House."

"The commissioners seemed much taken with the idea, and wondered why no one had ever thought of it before. They told me they would have their engineer figure on it, and make an estimate of the cost, and that they would correspond with me regarding the matter later. For further consideration of the matter, I was referred to Andrew A. Green, of New York, and expect to see him when I leave Buffalo, Tuesday."

Asked how much he estimated the cost of the improvement would be, Mr. Keefer said:

"That is hard to say, but I am of the opinion it would not run over \$50,000 or \$60,000, which would be a small price to pay for such an improvement. I shall bring the matter before the governor of New York, and through him again to the attention of the falls commissioners."

"The people ought to be interested in this improvement, for it will make a new falls at Niagara. It will stimulate the interest of those who have never seen the falls before, while those who have seen them will be anxious to come again to see what has been done to preserve and improve one of the greatest American wonders."

Mr. Keefer already enjoys distinction of being the man who raised the first American flag in Alaska. He is also a cousin of Gen. George Washington.

Louisville, Ky.—What is considered a remarkable case of spontaneous combustion is brought to light by Dr. S. E. Woody, who for several years has been dean of the Kentucky school of Medicine and for twenty years a professor of chemistry of that college. The report of the case comes to Dr. Woody in a letter from Dr. B. C. Wilson, a reputable physician, of Soldier, Ky. In part the letter says:

"A child about 4 years old was burned in the extremities and abdomen by its dress catching on fire. The burns in each locality, being of moderate severity and strictly superficial, were not sufficient to have caused a fatal result. The burns were dressed in the following manner: First dusted with subnitrate of bismuth, then linseed oil was freely poured on and the parts wrapped in cotton batting and a sheet pinned around it snugly and lastly a quilt was wrapped around this."

"The child was put to bed and instructions were given not to remove the dressing. The child complained bitterly all night long, the parents thinking that the suffering was due to the original burn. About daylight they saw smoke arising from the bed, but being very ignorant people they thought it was the fire leaving the burn, and did not remove the dressing until later, when the child was dying."

Upon removing the dressing they found the inner aspect of the sheet was scorched, the cotton batting was burned almost entirely up (over the abdomen) and still smouldering."

"The child was burned into the intestines in three places and died in a few minutes. There was not the least evidence of the remotest possibility of the second fire originating from the outside, and there was absolutely nothing used but the bismuth and the linseed oil."

Dr. Woody gives the following explanation:

"Under the circumstances it must have been spontaneous combustion of the linseed oil. The bismuth subnitrate and cotton divided finely, distributed the oil and exposed a large surface to the action of the oxygen of the air. The warmth from the body added to the heat and hastened the oxidation, and the covering confined the heat until the oxidation became an actual combustion."

You may as well expect to run a steam engine without water as to find an active, energetic man with a torpid liver and you may know with a torpid when he does not relish his food or feels dull and languid after eating, often his head aches and some times dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price 25 cents. Samples free at C. E. Holton's drug store.

NO RIGHT TO UGLINESS.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation, or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at C. E. Holton's drug store.

If people only knew what we know about Kodol Dyspepsia Cure, it would be used in nearly every household, as there are few people who do not suffer from a feeling of fullness after eating, belching, flatulence, sour stomach or waterbrash, caused by indigestion or dyspepsia. A preparation such as Kodol Dyspepsia Cure, which, with no aid from the stomach, will digest your food, certainly can't help but do you good.

HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size bottles 50 cents and \$1. Trial bottle free at C. E. Holton's drug store; every bottle guaranteed.

A SPRAINED ANKLE QUICKLY CURED.

"At one time I suffered from a severe
sprain of the ankle," says George E.
Cary, editor of the Guide, Washington
Va., "After using several well recom-
mended medicines with out success, I
tried Chamberlain's Pain Balm, and
am pleased to say that relief came as
soon as I began its use and a complete
cure speedily followed." Sold by C.
E. Holton, druggist.

Mr. W. S. Whedon, cashier of the
First National Bank of Winterest, Iowa,
in recent letter gives some experiences
with a carpenter in his employ, that
will be of value to other mechanics.
He says: "I had a carpenter working
for me who was obliged to stop work
for several days on account of being trou-
bled with diarrhoea. I mentioned to
him that I had been similarly troubled
and that Chamberlain's Colic, Cholera
and Diarrhoea Remedy had cured me.
He bought a bottle of it from the
druggist here and informed me that
one dose cured him, and he is again
at his work." For sale by C. E. Hol-
ton, druggist.

A GOOD COUGH MEDICINE,
It speaks well for Chamberlain's
Cough Remedy when druggists use it
in their own families in preference to
any other. "I have sold Chamberlain's
Cough Remedy for the past five years
with complete satisfaction to myself
and customers," says druggist J. Gold-
smith, Van Etten, N. Y. "I have al-
ways used it in my own family both for
ordinary coughs and colds and for the
cough following la grippe, and find it
very efficacious." For sale by C. E. Hol-
ton, druggist.
